FORM CRS

Madden Advisory Services, Inc. is registered with the Securities and Exchange Commission as an investment adviser and, as such, we provide advisory services rather than brokerage services. Brokerage and investment advisory services and fees differ and it is important for you, our client, to understand the differences. Additionally, free and simple tools are available to research firms and financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing. This document is a summary of the services and fees we offer to "retail" investors, which are natural persons who seek or receive services primarily for personal, family, or household purposes.

Account Monitoring: If you open an investment account with our firm, as part of our standard service we will monitor your investments on a daily basis.

What fees will I pay?

The following summarizes the principal fees and costs associated with engaging our firm for investment advisory services.

- **Asset Based Fees** Payable quarterly in advance. Since the fees we receive are asset-based (i.e. based on the value of your account), we have an incentive to increase your account value which creates a conflict.
- Hourly Fees Payable in advance or in arrears depending upon the scope of the services to be provided.
- Fixed fees Payable in advance or in arrears depending upon the scope of the services to be provided and the negotiated rate.
- **Pension Consulting Services Fees** Based on an hourly fee, a flat fee, a fee based on percentage of assets, or a combination of fee arrangements based on the complexity of the plan and the agreement with the Sponsor.
- Clients may also pay additional fees and/or expenses. Common fees and costs applicable to our clients

are: Custodian fees; Account maintenance fees; mutual fund and ETF fees; Transaction charges when purchasing or selling securities; and other product-level fees associated with your investments.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Key Questions to Ask Your Financial Professional

 Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Because our revenue is derived from asset-based fees, we have an incentive to grow your account as much as
possible. This could cause us to take overly aggressive positions in conflict with your interests in an attempt to
grow your account, or could incentivize us to inflate the valuations of illiquid investments held in your account.

Key Questions to Ask Your Financial Professional

How might your conflicts of interest affect me, and how will you address them?

Refer to our Form ADV Part 2 Items 5, 10, 11, 12 and 14 to help you understand what conflicts exist.
